

**Harrison research report submission request emails:**

**From:** Melissa Harrison  
**Sent:** Monday, 25 May 2020 7:50 PM  
**To:** Committee, COVID (SEN)  
**Subject:** Submission to Select Committee on Covid-19

Dear Committee Secretary,

I am writing to submit my submission to the Select Committee on Covid-19. I tried to upload through the APH site, but kept getting error messages.

My submission is attached, under my name Melissa Harrison.

An additional document I would like to include is a report that I have already published, 'Covid-19: Plandemic. Profit. Fallout', that I would like to attach as it contains an extensive amount of referenced research.

I'm unable to send through email as it's too large. I've included a downloadable low resolution PDF on my website, is it possible to include this report as supporting documentation?

<https://www.harrisonpublications.org/covid-19-plandemic-profit-fallout.html>

I would like my name and information to be **public** please.

Kind Regards,

Melissa Harrison

**THE SENATE SELECT COMMITTEE ON COVID-19**

**Inquiry into the Australian Government's response to the COVID-19 pandemic**

Thank you for your correspondence. The Senate Select Committee on COVID-19 (the committee) is receiving a lot of interest in this inquiry and will consider your document as soon as practicable.

Please note that all documents sent to the inquiry become committee documents on receipt, and are only made public following a decision of the committee. It is the committee's responsibility to make a decision as to whether or not to publish a submission.

The processing and publishing of submissions is not an automated process and may take some time (ranging from days to weeks). The committee appreciates the patience of submitters on this matter.

If your submission is accepted as a public document by the committee, it is published on the committee's [website](#) under the submitter's name (with their signature and/or contact details removed). This means that your submission, as a public document, will be searchable on the internet.

Please advise the secretariat immediately if you want your submission to remain confidential.

### **Requests for confidentiality**

If you would like the committee to consider receiving your submission as confidential, please provide a short covering letter to the submission which outlines the reasons for your request. The committee will give sympathetic consideration to requests for confidentiality, but cannot make promises in advance.

It is the usual practice of Senate committees to make public submissions received during the course of an inquiry. For this reason, it would be preferred that, if possible, confidential information is restricted to an attachment or an appendix so that the body of your submission could be made public.

Please contact the committee secretariat if you require further advice on confidential evidence

### **Parliamentary privilege**

Submissions are protected by parliamentary privilege. This means that what you say in the submission cannot be used in court against you or anyone else. It is an offence for anyone to harass or discriminate against you because you have made a submission. Further information about parliamentary privilege is available from [Senate Brief No. 11 – Parliamentary Privilege](#) on the Australian Parliament website.

Should you have any queries regarding this correspondence, please contact the secretariat on (02) 6277 3892, or by emailing [covid.sen@aph.gov.au](mailto:covid.sen@aph.gov.au).

You will be notified once the committee has considered your submission.

Yours sincerely

Ms Jade Monaghan – Administrative Officer

On behalf of

Dr Jane Thomson

**Committee Secretary**
