SUMMARY CONFLICTS OF INTERESTS

Additional conflicts of interest:

General conflicts of members of the Federal Covid19 Commission:

In March 2020, Prime Minister Scott Morrison announced the creation of the 'National Covid-19 Coordination Commission (NCCC). Members of the NCCC do not appear to represent the interests of small business or 'everyday Australians'. Instead, they hold senior board positions of companies in mining, oil and gas, airlines, private hospitals, pharmaceutical companies, casinos and superannuation giants. One member is a billionaire. Another was recently accused for being 'an international tax dodger' by a Senator. Another Chairs an international organisation at the forefront of brokering private-public partnerships and garnering billions in taxpayer dollars to fund Covid-19 vaccine development.

The Morrison Government's choice of NCCC board members, and the glaring omission of any member who could be said to represent small business or employee unions, is a farcical premise of 'mitigating the economic and social effects' of Covid-10.

I believe to be the true function of the NCCC Executive Board is apparent - to facilitate the taxpayerfunded bailout of the industries they represent, and to broker the transfer of vast swathes of public money to private coffers. ref pages 75-76 HARRISON REPORT

- None of the members of the Federal Covid19 Select Committee Board are doctors or have medical practice experience.
- The husband of one of the Federal Covid19 Board members (Jane Halton) is the Deputy Statistician. Jane Halton used to work for the Australian Bureau of Statistics. https://www.centerforhealthsecurity.org/event201/players/halton.html Although this may not be a conflict in itself, the Australian Bureau of Statistics is not releasing statistics of deaths certified by doctors to be caused by Covid19. They are only releasing what they say are "estimated deaths" when compared to the number of covid19 "new infections" without any medical or scientific justification for how these "estimates" are calculated. ref: https://www.abs.gov.au/statistics/health/causes-death/provisional-mortality-statistics/latest-release
- Jane Halton also has board membership and directorships of other companies heavily invested in vaccine companies or interests eg CEPI & Bill and Melinda Gates Foundation.
- Most members of the Federal Covid19 Board hold other board and company positions or shareholdings, which appear to be a conflict of interest eg vaccine companies

In the 19 page cover letter to the Harrison report, the author examines the conflicts of interest of each member on the Australian Covid 19 Board of commissioners, who incidentally are not doctors.

"In March 2020, Prime Minister Scott Morrison announced the creation of the 'National Covid-19 Coordination Commission (NCCC). "An Executive Board of Commissioners, will advise the Prime Minister on all non-health aspects of the pandemic response...

Upon examination, the Board Members of the NCCC do not appear to represent the interests of small business or 'everyday Australians'. Instead, they hold senior board positions of companies in

mining, oil and gas, airlines, private hospitals, pharmaceutical companies, casinos and superannuation giants. One member is a billionaire. Another was recently accused for being 'an international tax dodger' by an Australian Senator. Another Chairs an international organisation at the forefront of brokering private-public partnerships and garnering billions in taxpayer dollars to fund Covid-19 vaccine development. The Morrison Government's choice of NCCC board members, and the glaring omission of any member who could be said to represent small business or employee unions, is a farcical premise of 'mitigating the economic and social effects' of Covid-19."

EVENT 201 - CEPI - MORRISON - HALTON

Event 201 planned/gamed this scenario in 2019.

Scott Morrison's emergency executive advisory panel, and chairs a vaccine commercialisation organisation called CEPI, aligned with QLD Uni/ CSL and Oxford/ AstraZeneca vaccine production consortiums.

CEPI received a 750m contract in December 2019 from the federal government. Those two consortiums landed the 1.7 Billion gig Scott announced a few weeks back. Lucky!

Norway Cepi board member https://cepi.net/about/whoweare/

Lockstep agenda for all world nations:

https://www.gracevanberkum.com/post/2010-rockefeller-lock-step-document-coming-to-life-right-now-time-to-wake-up

Cepi paid BY Australian tax payer funds. In January 2019, Minister for Foreign Affairs Marise Payne announced funding of \$4.5 million to support CEPI, "for vital vaccine development to fight infectious disease epidemics." 348 (An interesting figure, as this almost amounts to CEPI receiving a full taxpayer-funded refund for their \$4.7 million grant to the University of Queensland/CSIRO 'consortium', both awarded in the same month.) **see pages 102-103 HARRISON REPORT**

Big pharma lobby and incentives to doctors see pages

"While doctors and health groups receive millions of dollars a year from pharmaceutical companies in grants and sponsorships, the industry spends far more on political donations in an attempt to influence health policy and get drugs on the PBS." 121-126 HARRISON REPORT

FINANCIAL CONTRIBUTIONS BY BIG PHARMA TO WHO

The immense sums of 'voluntary contributions' the WHO receives from Big Pharma - entities with a vested interest in influencing global health policy - gives rise to alarming questions regarding WHO's purported independence.

In its most recent 2017 voluntary contribution report the WHO accounted for the \$2.1 billion it received from private foundations and global corporations. This compared to just over \$1 billion voluntarily provided by governments.

Contributors included GlaxoSmithKline, Bayer AG, Sanofi, Merck and Gilead Sciences... The third-largest single contributor in 2017 was GAVI. Formerly called the Global Alliance for Vaccines and Immunization, they contributed nearly \$134 million. GAVI are partnered with the WHO, UNICEF, the Bill & Melinda Gates Foundation and the World Bank to sell vaccines globally.

The World Bank contributed nearly \$146 million themselves and the largest individual payment, by some margin, at nearly \$325 million came from the Bill & Melinda Gates Foundation (BMGF). Though like many other foundations and corporations, through their various networks of interlinked partnerships, their overall contribution was much higher."

"On March 23rd the UK State legislated for the Coronavirus Act and placed the UK in lockdown. Just as the WHO and their other partners called on them to do." ['Other partners': Big Pharma and Gates Foundation et al]
