

Agenda 21 and Agenda 30 Overview

Overview

The UN outlined their plans for a one world government in the Agenda 21 document. They recently updated it to Agenda 2030 which is designed to complement Agenda 21, and as such goes far beyond the original aims of Agenda 21. Agenda 2030 has 17 Sustainable Development Goals and 169 targets that demonstrate the scale and ambition of this new universal Agenda.

The new Goals and targets came into effect on 1 January 2016 (*this is when Victoria signed up to UN Strong Cities*) and would guide the decisions we take over the next fifteen years. It is expected that all of us will work to implement the Agenda within our own countries and at the regional and global levels, taking into account different national realities, capacities and levels of development and respecting national policies and priorities.

Strong cities 2018 Report (Melbourne hosted)

Launched at the United Nations General Assembly in 2015, the Strong Cities Network (SCN) is the first global network of mayors, policymakers and practitioners united in building social cohesion and resilience to prevent and counter violent extremism in all its forms. Led and facilitated by the Institute for Strategic Dialogue (ISD), it comprises more than 120 cities from across every major global region.
