

SUMMARY GLOBAL AGENDAS-21/30/SCN/RESILIENT CITIES

EROSION OF INDIVIDUAL RIGHTS & NATIONAL SOVEREIGNTY IN SACRIFICE TO GLOBAL AGENDAS

Australian Governments over time have adopted or come into agreement with various international treaties and accords that have compromised Australian sovereignty and its ability to act in its own interest without foreign control or interference including:

- 1968 Club of Rome,
- 1974 New International Economic Order,
- 1975 Lima Declaration,
- 1992 UN Framework Convention on Climate Change,
- 1992 UN Agenda 21,
- 2015 Paris Accord, and
- 2015 UN Agenda 30

See also EXHIBIT- “CANADIAN COURT PROCEEDINGS” referring to global agendas-paragraphs 201-215

It appears that the Australian Government signed the 1975 UN Lima Declaration WITHOUT referendum to redistribute wealth from 1st world to 3rd world countries, which involved outsourcing our manufacturing, agriculture and ownership of our major infrastructure assets.

When the UN announced its Agenda 2030 plan (an augmentation of the Agenda 21 plan for a one world Government that Keating signed without referendum in 1992) on 1 January in 2016, this is when Victoria signed up to the UN strong cities project and joined the Rockefeller 100 Resilient Cities since re-named GRCN and BRI not long after.

An example of Global Agenda interfering with Australian Interests:

Section 100 of the Australian Constitution. It reads...“The Commonwealth shall not, by any law or regulation of trade or commerce, abridge the right of a State or of the residents therein to the reasonable use of the waters of rivers for conservation or irrigation.”

Agenda 21

Agenda 21 decreed that the government took away our right to collect rainwater and store it in water tanks. Now the government imposes a licencing fee to collect free rainwater!

This has not been challenged in the High Court but we believe that Australians, under section 100 of the Constitution have the right to water. John Howard and his Liberal government, separated land and water in 2004 to make it a saleable commodity. This was not done for any reason other than for profit and meeting requirements of global and multinational reasons.

2) Transforming our world: the 2030 Agenda for sustainable development

Follow up agenda 2030

The High-level Political Forum on Sustainable Development is the central UN platform for the follow-up and review of the 2030 Agenda for Sustainable Development adopted at the United Nations Sustainable Development Summit on 25 September 2015.

Overview of Agenda 21- One World Government

The UN outlined their plans for a one world government in the Agenda 21 document. They recently updated it to Agenda 2030 which is designed to complement Agenda 21, and as such goes far beyond the original totalitarian aims of Agenda 21. Agenda 2030 has 17 Sustainable Development Goals and 169 targets that demonstrate the scale and ambition of this new universal Agenda.

The new Goals and targets came into effect on 1 January 2016 (*this is when Victoria signed up to UN strong cities*) and will guide the decisions we take over the next fifteen years. All of us will work to implement the Agenda within our own countries and at the regional and global levels, taking into account different national realities, capacities and levels of development and respecting national policies and priorities.

Strong cities 2018 Report (Melbourne hosted)

Launched at the United Nations General Assembly in 2015, the Strong Cities Network (SCN) is the first global network of mayors, policymakers and practitioners united in building social cohesion and resilience to prevent and counter violent extremism in all its forms. Led and facilitated by the Institute for Strategic Dialogue (ISD), it comprises more than 120 cities from across every major global region.

<https://strongcitiesnetwork.org/en/wp-content/uploads/sites/3/2018/08/SCN-Global-Summit-2018-Report.pdf>

<https://strongcitiesnetwork.org/en/city/victoria-australia/>

SCN is led by ISD and launched at the United Nations General Assembly in September 2015, the Strong Cities Network (SCN) is the first ever global network of mayors, governors and local practitioners united in building social cohesion and community resilience to counter violent extremism in all its forms.

The Strong Cities Network is run by the Institute for Strategic Dialogue (ISD), a UK registered charity with charity number 1141069.

To facilitate this, ISD fosters strategic partnerships across governments, academia, civil society and the private sector to develop policy and operational programmes to respond to the threat of extremism. They also work closely with leading players in the media and technology sector to help achieve impact on a global scale.

SO WHO ARE THESE PARTNERS?

The funding partners include Microsoft, Facebook, Google, Twitter, Open Society Foundation (George Soros) and Australian Department for Home Affairs.....more here in this link:

<https://lnkd.in/e768YHV>

Melbourne signed up to 100 Resilient Cities funded by the Rockerfellers.

Funding was later funnelled into:

1) Resilient Cities Catalyst (RCC has access to Aussie taxpayer \$\$ from the Great Barrier Reef Foundation who is a sponsor).

<https://www.rcc.city/our-partners>

2) Global Resilient Cities Network (GRCN) A quote from Toby Kent, Chief Resilience Officer, Melbourne that shows the connection.

https://www.csrwire.com/press_releases/43476-Announcing-Resilient-Cities-Catalyst-a-New-Nonprofit-Built-on-the-Legacy-of-100-Resilient-Cities-

"Michael and the RCC team played a critical role in elevating the practice of urban resilience worldwide through 100 RC. I look forward to building on those efforts and through their support for a range of city collaborations, including the GRCN."

Victoria is a member of two global think tanks (plus BRI):

1) GRCN - (Rockerfeller backing)

2) Strong Cities Network (part of the UN)
